About the product:
- Each of us needs a lot of energy. Hope is a lightly carbonated drink that provides people with the vitamins they need for everyday life. It is good for both children and adults. Hope provides energy for waking up in the morning and doing sports. This drink contains various B vitamins, vitamin C, and magnesium. B vitamins regulate the work of nerves, muscles, and bones and have a positive effect on metabolism. Vitamin C contributes to the formation of collagen and the normal functioning of bones, skin, gums, cartilage, and blood vessels. Vitamin C also reduces exhaustion and fatigue. Magnesium regulates nerve and muscle function. Consumption of magnesium helps prevent kidney stones, lowers blood pressure, and reduces blood clots. The need for magnesium increases with mental-physical stress, as well as with active exercise, puberty, and pregnancy. The product contains fruit sugar. Does not contain dyes!
